ETTO AI Education Board

Smart Classroom
for Onsite & Online Education

New Launched Product Dedicated for Education

Our customized ETTO AI Education boards for education sector offer seamless interactivity, featuring high-precision touchscreens and intelligent palm recognition. Designed for teaching presentations, each board includes free access to Google AI Gemini and Deepseek. This innovative integration of advanced hardware and intelligent software redefines the classroom experience, enabling both teachers and students to build highly interactive environments powered by seamless real-time collaboration.

For Students

- Hardware-level Blue Light Eye Protection
- AI Tracking Camera for Teaching Interaction
- QR Code Scan Note Sharing
- Tempered Glass Anti-vandalism
- 4K Ultra HD Visual Presentation
- Crystal View From Any Seat

For Teachers

- Diverse Screen Projection
- AI Voice Interactive
- Ultra-Low Latency Writing Acceleration
- Teach in Two Colors Flow Without Interruption
- AI Education Whiteboard
- From Device to Display in Real Time

Supported Software

Bytello Google Play YouTube zoom

Hardware-level Blue Light Eye Protection

Internationally certified for low blue light protection, our hardware-based technology safely reduces eye strain while delivering accurate, true-to-life colors. Designed to support wellbeing, it brings healthier collaboration into every classroom session.

kindness, bravery, and the danger of vanity.

This teaching guide presents a simplified version of the classic tale, ada language learners at the pre-intermediate level. The vocabulary has selected, and grammar structures are kept accessible while maintaining meaning of the original story.

Learning Objectives

- Understand and retell the main events of the story
- Learn and use 40+ new vocabulary words related to fairy tales, emotions, and nature
- Practice past simple tense in narrative contexts
- Develop reading comprehension and critical thinking skills
- Engage in creative speaking and writing activities

Target Vocabulary Themes

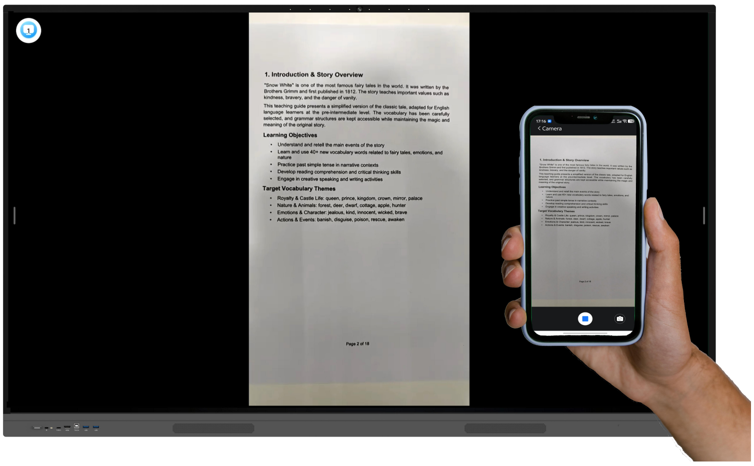
- Royalty & Castle Life: quee rown, mirror, palace
- Nature & Animals: forest, deer, dwarf, cottage, apple, hunter

AI Text-to-Speech （TTS）

Text becomes sound with one-click generation — let your courseware "speak." The text-to-speech feature covers teaching scenarios such as reading aloud, listening practice, and announcements — less hassle for teachers and a more lively classroom.

Real-Time Phone Screen Mirroring

After connecting your phone to the IFP, the camera feed can be mirrored to the large screen in real time — no extra equipment needed. Shoot and display instantly, making classroom presentations and physical object demonstrations more intuitive.



1. Introduction & Story Overview

"Snow White" is one of the most famous fairy tales in the world. It was written by the Brothers Grimm and first published in 1812. The story teaches important values such as kindness, bravery, and the danger of vanity.

This teaching guide presents a simplified version of the classic tale, adapted for English language learners at the pre-intermediate level. The vocabulary has been carefully selected, and grammar structures are kept accessible while maintaining the magic and meaning of the original story.

Learning Objectives

- Understand and retell the main events of the story
- Learn and use 40+ new vocabulary words related to fairy tales, emotions, and nature
- Practice past simple tense in narrative contexts
- Develop reading comprehension and critical thinking skills
- Engage in creative speaking and writing activities

Target Vocabulary Themes

- Royalty & Castle Life: queen, prince, kingdom, crown, mirror, palace
- Nature & Animals: forest, deer, dwarf, cottage, apple, hunter
- Emotions & Character: jealous, kind, innocent, wicked, brave
- Actions & Events: banish, disguise, poison, rescue, awaken
