Hardware-level Blue Light Eye Protection

Internationally certified for low blue light protection, our hardware-based technology safely reduces eye strain while delivering accurate, true-to-life colors. Designed to support wellbeing, it brings healthier collaboration into every classroom session.

From Page to Screen in One Second

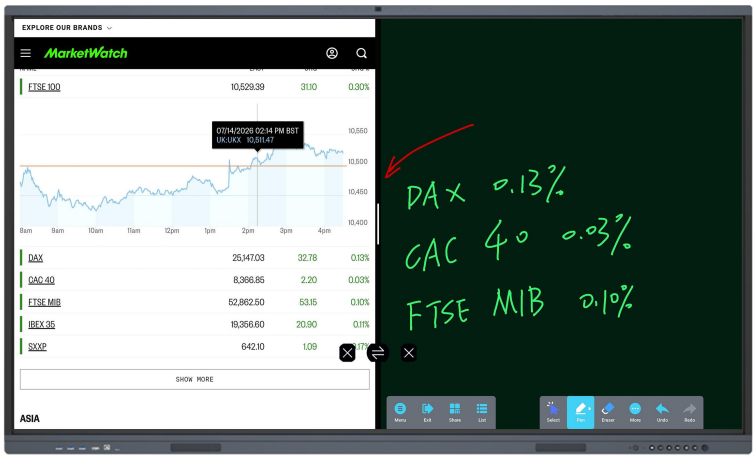

Optional built-in visualizer brings your documents from page to screen in one second, featuring selectable camera resolutions (≥8MP and above), adjustable LED, split-screen, and live annotation.

Simply scan the QR code to share documents, messages, and images with a single tap. Whether you're connected via WAN or LAN, your content will be delivered quickly and securely to the smart interactive whiteboard—no extra setup required.

Dual-Screen Collaboration for Real-Time Alignment

Dual-screen mode lets you view live field data alongside your meeting board. Stay fully informed without leaving your whiteboard, and keep decision-makers and execution teams perfectly aligned.
